

Jonard's cable cutters are made of chrome vanadium steel and are heat treated for maximum strength and durability. These cable cutters feature the following:

- Precision ground cutting edges for superior cutting ability
- Ideally used for soft copper coax and network cables and able to cut solid, stranded, and flexible cables up to 6 AWG
- Ergonomically designed handle with dipped plastic grip for greater comfort and torque
- This product is not for use on steel, aluminum alloys, or hard drawn copper cables
