

C2G

Discontinued - 42U Q-Series Side Channel Cover for 750mm (29.53in) Wide Server Cabinets
Part No. CG-QC4229SCR

This 42U Side Channel Cover is an ideal solution for covering the gap between the exterior and the rail on one side of a 750mm wide cabinet to seal airflow and manage cabling. This product includes gaskets to aid in sealing airflow, resealable cable pass-through openings to transition cabling from the back to the front of the rack, and optional cable management rings. The cover comes in two pieces and is designed for use with 42U server cabinets. Use two side channel covers to cover both sides of the cabinet.
[B]Note:[/B] This product is designed for use with 750mm (29.53in) wide cabinets and is not compatible with 600mm (23.62in) wide cabinets)

Features & Benefits

Designed for use with 750mm (29.53in) wide server cabinets

Covers one side of a cabinet
