

Quick Start

Nighthawk X10

AD7200 Smart WiFi Router

Model R9000

Package Contents

Router

Ethernet cable

Power adapter
(varies by region)

1. Position the Antennas

For the best WiFi performance, position the antennas as shown.

2. Restart Your Modem and Plug In Your Router

Unplug your modem, remove and replace the backup battery if it uses one, and then plug the modem back in. Use the Ethernet cable to connect the modem to the yellow Internet port on the router.

Note: If your Internet connection does not require a modem, connect your main Ethernet cable to the yellow Internet port on the router.

Connect the router to a power source. The router's Power LED  lights solid white when the router is ready.

3. Connect to the Internet

Make sure that the router's WiFi LED () is lit. Look on the router label for the preassigned WiFi network name (SSID) and network key (password).

Open the WiFi connection manager on your WiFi-enabled computer or mobile device, find the router's SSID, and use the router's password to connect to the router's WiFi network.

Launch a web browser. If the installation assistant does not display, visit www.routerlogin.net. If a login window displays, enter **admin** for the admin user name and **password** for the admin password.

Follow the onscreen instructions to connect to the Internet.

The router's Internet LED  lights white when the router is connected to the Internet.

NETGEAR®

All Set Up!

Get Free Apps

Start enjoying your new router right away with free apps that make management simple.

Visit netgear.com/support/product/R9000 to download the apps.
